My Personal Talents and Job Description

- I would like to contribute to the functioning of my manager or the units I am affiliated with in order to effectively and adequately improve the quality of work in all your activities, including internal structural or field organizations for your company.

I think that my ability to form your projects or ideas that will be planned in accordance with your creative and collaborative way is in accordance with your job description and your company's point of view.

In addition, the valuable education or supports I will receive from you is very important to me.

(2009) - I have a Class B driver type use license obtained in Turkey and I am actively driving a car

I am single, so I do not have any travel restrictions at home or abroad.

I am a person who is always open to self-improvement, loves research, is willing to work and learn. I have a personality that can produce quick solutions with an analytical point of view.

Since I was growing up in different big cities since my childhood, I have had the opportunity to meet very different people with very different social backgrounds and cultures, and this has improved my ability to empathize. That's why I get along with all kinds of people comfortably. I am prone to teamwork in the workplace, I have a developed ability to plan and organize. I am a dynamic person who can adapt to the fast pace of work and flexible working hours.

- Windows, DOS and its applications and hardware / Office programs and plugins / Remote management systems / Virus and security / Network and infrastructure services
